

TAKES OUT LARGE POKE

Cullinane Does Well in Northland

SELLS FRENCH HILL CLAIMS

Will Leave in a Few Days for Visit
to England and the Continent—Has
Taken Part in Many Interesting Ex-
periences.

Many who have spent years in the Northland are obliged to go outside finally with little or nothing to show for the exposure and hardships endured. Not so with Ted Cullinane. He leaves with a poke large enough to carry him to many places on the earth and to enjoy himself thoroughly everywhere.

The young sourdough came into the country in 1808 and has been engaged in mining ever since that date. A few days ago he disposed of a group of fifteen claims on French hill to O. R. Brenner for about \$— the exact figures not being given.

Cullinane is a partner of Dunham, Sheets, Higgins and others in 13 Eldorado. Brenner is interested with the Rothschilds on Hunker creek.

Within a few days Cullinane will leave for England. He will make a tour of the continent during his absence from the Klondike, but the most of his time will be spent in England, where he has relatives. The young man has an interesting history and has taken part in many striking incidents and been a witness of others.
